Required Documents for Certificate of Zoning Compliance Commercial Construction

★ Application and Fee

Complete application form
Land characteristics and ownership
Development proposal
Contact information

Submit Fee
Check or money order: \$225.00
Payable to Blendon Township Board of
Trustees

★ General Site plan

Submit a site plan (drawn to scale) showing the following:

Physical elements

- Lot dimensions
- Easements: location and dimensions
- Proposed construction: location and dimensions
- Uses of buildings, existing and proposed
- Neighboring lots: basic information

Storm water and Wastewater

- Surface drainage features
- Underground storm drainage features
- Wastewater provision (on-site or centralized)

★ Erosion and Sediment Control Plan

The Erosion and Sediment Plan consists of a Site map and a Project narrative

Site map must show:

- Existing contours and drainage pattern (flow directions)
- Final contours and drainage pattern (flow directions)
- Existing vegetation: trees, shrubs, grass, etc.
- Locations of storm water facilities (inlets, pipes, outlets, swales, waterways)
- Limits of clearing and gradation: area to be disturbed
- Erosion and sediment control measures: locations and types of measures that will be used

Project narrative must include:

- Project Description: nature and purpose of land-disturbing activity
- Existing site conditions: general physical attributes of the site
- Construction Sequence: summary of when control practices will be implemented, including approximate dates
- Critical Areas: site areas with high potential for erosion or sediment problems (steep slopes, concentrated flow areas)
- Permanent stabilization: plan after construction is complete
- Maintenance: schedule of regular inspection of erosion and sediment control
